STUDENTS TO UNDERTAKE WORK EXPERIENCE

Australian Nuclear Science and Technology Organisation (ANSTO) welcomed 17 students from Quorn Area School from 8 to 11 April 2018 to undertake an educational experience at Lucas Heights.

The students range from year 9 to 12 and were accompanied by two teachers.

Over the week they have had the chance to experience the behind the scenes work at ANSTO's Lucas Heights facility. The experience is designed to teach students about waste operations and the different career paths at ANSTO, which range from electrical apprenticeships to law. The educational experience is an outcome of the Economic Working Group, who while visiting ANSTO's Lucas Heights campus identified the opportunity for young people in the Council area to learn about work and career opportunities.

DOG REGISTRATION 2018-2019

As of 1 July 2018, South Australia's dogs and cats registrations will be undertaken by the Dog and Cat Management Board via the Dog and Cat Online System (DACO).

DACO will send the 2018-2019 renewal letter by post. Registration and payments will be undertaken online. Council will still be available to assist with online registration if access to the internet is not available or problems are encountered.

Once registration and payment is complete, a registration disk will be sent by post. The disk number will now remain the animals number for life.

If you have a 2017-2018 registered animal that, has moved out of the district, changed owners or passed away please notify Council as soon as possible.

Please note: that any dog over the age of 3 months MUST be registered and all dogs staying within our Council for longer than 14 days must also be registered within our Council.

REMINDER:

Before 1 July 2018 all dogs need to be microchipped and all dogs born after the 1 July 2018 need to be Microchipped and Desexed (exemptions apply for certain classes of dogs).

All cats need to be desexed and microchipped to be able to be registered.

SOLAR LIGHTS - QUORN AND HAWKER

Council is aware that some solar lights are currently not working.

Rechargeable batteries are an important component of our solar lights as they store the power generated by the energy from the sun.

Most of the rechargeable batteries in our solar lights have gone past their economic life. We are now looking at economic replacement options of the rechargeable batteries and are hoping to bring all the lights back into service by mid May 2018.

Council would like to thank you for your patience.
