MAYOR'S MESSAGE

Hello again to all residents. At the June 2018 Ordinary Council meeting, Council adopted the Annual Business Plan and Budget for the coming year. The Public Consultation process on these very important documents, which set out Council's plans for the coming year and raises the rates to pay for it, resulted in no submissions, no requests to speak at the meeting, and no attendees at the public information "drop-in sessions" in Hawker and Quorn. Whilst it's possible to interpret that as a vote of confidence from the community in what your Council is doing, it's equally possible to see it as a lack of interest and engagement from our community in how we provide services to and for them. We are constantly encouraging community input into what we do and how we do it, and I again encourage all of our residents and ratepayers to take an active interest in Council's operations, especially through the Public Consultation processes as they occur, but also through engagement with your Elected Members.

It was also determined at the June 2018 Ordinary meeting that Council would facilitate the Community ballot process on behalf of the Minister to assist in determining the level of support for the establishment of the proposed National Radioactive Waste Management Facility in the Barndioota region. The ballot area will be the same as the previous survey sample, meaning the area within a 50km radius of the proposed site as well as the rest of The Flinders Ranges Council area.

The same process is underway at Kimba as they are also surveyed for levels of community support. The District Council Of Kimba have taken a more pro-active and supportive role in the process, and had also insisted on further information (including the design of any proposed facility, transport mechanisms, and the proposed scale and structure of the Community Benefit Package being offered to support the host community should a site be determined) being made available to all community members prior to the Ballot process. Given the concurrent processes, The Flinders Ranges Council has endorsed their requirement for this information to be made available before we will support the request to have the Australian Electoral Commission undertake the Ballot process and will be ensuring that all information is available as it is released through the Department's usual processes.

It is important that any NON-RESIDENT ratepayers, or businesses, register with Council's Supplementary Voters Roll for this Community Ballot process – this Roll is cleared (legislatively) at the start of every Council election year, and those on it must therefore re-apply every 4 years. If you were on this Roll, or think you are eligible and wish to be, please contact Council as soon as possible.

THE GREAT PUMPKIN PARTY - WRAP UP

The Great Pumpkin Party raised a massive 675kg of pumpkins which enables Foodbank SA to put more than 1,350 meals on the table of vulnerable South Australians in need in the region.

"We are very thankful for the Hawker Uniting Church, the residents of Hawker and the wider Community of The Flinders Ranges Council for their generous support of Foodbank through The Great Pumpkin Party" said Greg Pattinson, CEO, Foodbank SA

"These pumpkins don't end up in metropolitan areas, those in need living on the Eyre Peninsula, West Coast and Far North South Australia will benefit from these pumpkins. From Foodbank, the other agencies, schools and individuals in the region in need, we thank you." Said Sandy Woolford, Foodbank Branch Manager – Whyalla.
